PRICE FIVE CENTS

WELCOME PLANNED FOR BRYCE AND SEC. FISHER

'HIGH COST' BOOSTS MILK

Price Goes Up on October 1.
Announces Dairymen's Association

WHAT INCREASE IN PRICE OF MILK MEANS

- Increase from eleven to twelve cents per quart on October 1.
- 132,000 quarts sold monthly in Honolulu.
- Honolulu's present milk bill to Dairymen's Association, \$14,520.
- Increase means \$1320 additional monthly.
- Honolulu's per capita consumption of milk already fifty per cent below normal.
- Eighty per cent of milk consumers affected directly by increase.

On October 1 the price of milk in Honolulu will be raised from eleven to twelve cents per quart.

The Honolulu Dairymen's Association, declaring that it can not continue to sell milk at eleven cents a quart, and producing facts and figures to show that eleven cents a quart is a price which means a loss in the long run, has given notice that it will make the raise effective on October 1. At the same time, it is stated that the association may be able to reduce the price to eleven cents again on March 1 of next year.

Something more than eighty per

Fear To Greet Fisher Before Ship Is Docked

WALTER L. FISHER

Secretary of the Interior, who will arrive in Honolulu tomorrow.

Governor Will Go Out to the Steamer on Launch and Welcome Official

Secretary of the Interior, Walter L. Fisher, will pass through quarantine, on the steamship Chiyo Maru at 6 o'clock tomorrow morning, and a few minutes later Governor Frear, aboard the customs launch, will board the vessel to greet the arriving cabinet officer. The boat will dock shortly thereafter, and the Secretary, with his

wife and Herbert A. Meyer, his private secretary, will be escorted to the quarters that have been engaged for them at the Moana Hotel.

A wireless message was sent to Fisher yesterday afternoon, informing him that the quarters at the Moana Hotel have been reserved, and asking for advice on further preparations, but no reply has been received at a late hour today.

Whether the Secretary of the Interior has mapped out a definite program of procedure in his inquiry here is as yet unknown, beyond the general purpose of his investigation. Governor Frear said he had received no word as to whether the inquiry will be conducted publicly or in secret.

The Governor's annual report, on which he has been working for several weeks, will be finished late this afternoon or tonight. The original will be promptly mailed, addressed to Secretary of the Interior, Fisher, at Washington, D. C., while a carbon copy will be kept on hand to present to Fisher in person in case he asks for it. The original, on its arrival at Washington, will go to the printer, proofs will be made and sent back to the Governor for correction, and the report will not be ready for the Secretary of the Interior's formal perusal until it is bound in printed form, several weeks or months hence.

BREWER & CO'S STOCKHOLDERS CUT \$800,000

Big Melon is Sliced This Morning at a Special Meeting

HOLDERS OF 22,000 SHARES ARE INTERESTED

Capital Stock Increased from \$2,200,000 to Three Million

Eight hundred thousand dollars (\$800,000) is the size of the melon cut by the stockholders of C. Brewer & Company, Ltd., today. At a special meeting this morning to consider an increase on the capital stock, they voted for an addition of the amount just mentioned, which will make the capital stock \$3,000,000 instead of \$2,200,000 as at present. This increase is to take effect on November 1, the new stock to be distributed pro rata to the shareholders as a stock dividend from the surplus funds. President L. Faxon Bishop, in giving out this information, said there was no new scheme of expansion of business contemplated.

The corporation of C. Brewer & Co., Ltd., holds the agencies of thirteen sugar plantation companies and one pineapple company. It also represents old line insurance companies. Other agencies held by it are those of the Nippon Yusen Kaisha Steamship Co. of Japan and the Baldwin Locomotive Works.

The Brewer concern is a good deal more than half century old. After it became incorporated the house had a long career of prosperity, eventually a few years ago absorbing the large corporation of W. G. Irwin & Co., Ltd., with its plantation and steamship agencies.

With a par value of \$100 the stock of the corporation is quoted at 42 1/2 last sale.

Bud Mars Is Hurt In Bad Fall From Aero

J. C. MARS

OLEAN, N. Y., Sept. 5.—J. C. (Bud) Mars, the famous aviator, was dangerously hurt here today when his aeroplane refused to answer to his efforts at directing it in the air and crashed to the ground with the youthful flyer. Internal injuries are feared.

Mars is well known in Honolulu. He came here more than a year ago on his way to the Orient. This is the second serious accident he has suffered since his return. In the first, he was reported fatally injured.

NEW YORK MAYOR DEFENDS POLICE

Gaynor Accuses Aldermen, Not Members of Police Department of Profiting From Graft--Says Men Unjustly Blamed

NEW YORK, N. Y., Sept. 5.—Mayor Gaynor today came to the defense of the police officers accused of profiting from the operations of the vice and graft syndicate, in a sensational statement in which he declared that blame has been wrongfully put upon the police. He accused New York aldermen of petty graft, asserting that some of them have been profiting by the gambling operations and furnishing the "protection."

Mayor Gaynor has defended the police department ever since the Rosenthal murder, and his delay in calling for an investigation of the charges against Becker and others has been severely criticized.

Two Million Unionists Reject Arbitration Plan

CADILLAC, Mich., Sept. 5.—Ad Wolgast, lightweight champion of the world, who was matched with Packey McFarland, the Chicago lightweight, for a fight on September 27, today injured his arm so severely that he has postponed the match indefinitely. Wolgast was cranking his auto when the machine backfired and the crank struck his arm, bruising it badly, he claims.

Lone Bandit Robs Fast Train

LONDON, Eng., Sept. 5.—Representatives of two million trades union members have rejected the proposal for compulsory arbitration of disputes between capital and labor. This action has darkened the labor situation of Great Britain very much. Many strikes are feared.

CHAMPION WOLGAST HURT; MACFARLAND FIGHT OFF

NEW ORLEANS, La., Sept. 5.—A lone bandit held up and robbed the limited last night, overpowering the engineer and getting a thousand dollars from the express and mail car. He has not been caught.

Evades Transport's Brig; Recaptured Through Woman

A. Highland, Enrolled as "Indigent" Citizen, Not Permitted to Remain

Enrolled as an "indigent citizen" on the steamer passenger list of the United States Army transport Logan, and giving his name as A. Highland, the officers connected with the quartermaster's department in that troop ship sought police assistance this morning to apprehend and place in custody Highland, who, it is said, succeeded in making his getaway from the vessel some time during Wednesday evening.

Highland, and a woman who admitted that she was his wife, were found in a downtown lodging house shortly before noon today, following a lengthy stillhunt conducted by Assistant Chief of Detectives Kellett and several assistants.

The Logan officials allege that Highland is numbered among a score or more persons placed on board the transport before the sailing of that vessel from Manila. They claim that he, with many others, was deported from the islands at the instance of the government and ordered never to return there.

Chief McDuffie stated this morning that he was approached by Mrs. Highland, who made guarded inquiries as to whether steps would be taken by the local police officers to prevent the landing of her husband at Honolulu.

In the meantime the Logan officers discovered the absence of Highland, and immediately got into communication with the police department. The request was made that Highland be found and placed under arrest, to be held pending the departure of the troopship for San Francisco.

Mrs. Highland having just left the central police station, Kellett and several sleuths were sent on the trail of the woman. After tracing her movements over a circuitous route through the business section of the city, she was observed to enter a rooming house. The officers soon followed and there discovered Highland. He was brought to the station to await action upon the part of the military authorities.

BOUGHT OPIUM FROM BRECKONS, PROVES BAD DEAL

Whether the permission of a government official to sell contraband goods places such sale outside the definition of fraud is the knotty problem that has been placed before Circuit Judge H. E. Cooper today for solution. The point has arisen in the jury trial of a suit for \$114 brought by Goo Yee against Harry Rosenberg, to recover for three tins of opium which Rosenberg sold the Chinaman in the fall of 1910.

In the evidence given this morning it developed that Rosenberg, with whom Goo Yee had been doing considerable business in other lines, had obtained the three tins of opium from U. S. District Attorney R. W. Breckons for the definite purpose of selling them to Goo Yee. After the sale had taken place, the Chinaman was "shadowed" and soon the contraband

Y. M. C. A. PLANS RECEPTIONS; PUBLIC TO MEET NEW MEN

Five Recent Additions to Force Will be Greeted by Friends of the Organization

On account of the many requests of the public to meet the new assistant general secretary and the members of the employed force, the Y. M. C. A. is planning to hold two big open house receptions to start the fall work. On the night of September 27 there will be a reception for the men of the Y. M. C. A. and their friends, which will give the latter an opportunity to inspect the building and spend a social evening and also to meet the employed force. There will be special gymnasium features on that night and a program in the games hall. On the night of October 4 there will be another reception, which will give the ladies an opportunity to visit and inspect the building.

The greatly increased activity has led to the addition of five new members to the force. Lloyd R. Killam comes as assistant general secretary;

Fred W. Lau, physical director; Leroy Johnson, assistant physical director; R. W. Cross, associate boys' work director; and J. A. Urice, office secretary.

The Newcomers' Club will resume its meetings on September 29, and the educational classes will begin their work on September 30.

The house committee met at noon today to discuss the enlarging of the bowling alleys to accommodate both players and visitors. The popularity of the alleys during the summer has shown that more room is needed. The boys' work committee meets this afternoon to outline the work of the boys' department for the coming term. The different committees will continue meeting until next Thursday and on that night there will be a meeting of the directors, trustees and employed force at a banquet in Cooke Hall to finally settle on various policies of the association for the coming year and to adopt the budget which will be presented by the finance committee.

OFFICIALS WILL MEET BRITISH AMBASSADOR

Mott-Smith and Consul Harrington to Board Ventura on Arrival Here

At 7 o'clock tomorrow morning Acting Consul Thomas Harrington of Great Britain and Territorial Secretary E. A. Mott-Smith will climb aboard the Oceanic liner Ventura, lying in Honolulu harbor and just out of quarantine after arriving from Australia, where they will greet the Right Honorable James Bryce, ambassador extraordinary and minister plenipotentiary from England to the United States.

This is not the distinguished visitor's first appearance in Honolulu, as he spoke a few years ago at Oahu College, and as his present visit will be very brief, no plans for feasting or speech-making in his honor have been made.

The Ambassador's plans for employing the short time of his stay in the city will not be known until the local representatives meet him aboard the ship. It is considered likely, however, that if any formal call is made, it will be a visit to Rear Admiral Walter C. Cowles, when the guns at the naval station will boom forth the international salutes.

Ambassador Bryce probably will prefer, however, to give most of his time to an automobile tour through the city, with possibly a brief visit to Oahu College.

Speaking of the published statement that the Chamber of Commerce was not going to do anything in the way of a

UP TO HEALTH BOARD IN TENEMENT HOUSE CASES

Officers to Testify as to Reason for Refusing Licenses to Building Managers

President J. S. B. Pratt and Chief Sanitary Inspector Charles C. Haddock of the Territorial Board of Health were summoned to appear at District Court this morning in order that the prosecution of four Japanese and Chinese storekeepers might proceed without delay.

In making the rounds of the city, Board of Health inspectors are alleged to have found the premises of War Kong and Sney Yan in unsanitary condition, and recommended that alterations be made in the plumbing before licenses would be issued to the proprietors of stores therein.

As a result of this order, S. Oyama, Fook Sing and Y. Yamamoto were placed under arrest for attempting to do business without first having taken out a license.
